

# CLIMB THE LADDER

This is a game for two people. One of you will be ODD and one will be EVEN. Use a die and take turns rolling it. If the person who is odd rolls an odd number on their turn, he writes that number on the bottom rung of the ladder. If not, the turn is over. If the person who is even rolls an even number, he writes that on the bottom of his ladder. Continue taking turns until someone reaches the top of the ladder. Add variety to this game by using two dice, adding sums and deciding if the answer is odd or even.

**ODD**

**EVEN**
