

GRID WAR

Materials: Grid sheet per pair, 2 different color crayons, 1 die

Directions: The first player rolls and colors in the same number of sections on the grid as rolled. Next player rolls and colors in that many sections using a different color. Continue playing until the grid is filled in. Player with the most sections colored in with his/her color is the winner.

For older students- Have the players add or subtract 1 or 2 from the number rolled and color in that many squares. Also play using 2 dice. Add the sums.

Player #1 Total _____

Player #2 Total _____
